

A photograph of a minimalist wooden step stool with two steps and four legs, positioned in a kitchen. The stool is made of light-colored wood and stands on a rustic wooden plank floor. In the background, there are white kitchen cabinets with brass-colored handles and a white countertop with a grey bowl. The text "BUTLER" is overlaid in large white letters, and "DESIGN BY SHANE SCHNECK" is overlaid in smaller white letters below it.

BUTLER

BUTLER

Born from the desire to create a versatile step ladder to fit modern urban lifestyles, Shane Schneck has created in Butler a clever and multifunctional household item.

Providing two extra steps when used as a ladder, the larger lower step allows it to be utilised as a side table, stool or bedside bench when not serving its primary function. Crafted in solid oak with contemporary detailing, Butler comes pre-assembled and ready to use.
