

ABOUT A ECO COLLECTION

DESIGN BY HEE WELLING & HAY

HAY

ABOUT A ECO COLLECTION

With the objective of recreating HAY's iconic About A Chair and About A Stool series from a more sustainable perspective, the About A ECO series focuses on using environmentally friendly materials whilst retaining the fundamental aesthetic of the About A Collection. Available in a variety of interchangeable frames and shells, the AAC ECO 12, 22 and 32 models use recycled plastic (PP) for the gently curved shell, while the wooden base is available in solid FSC-certified oak with a water-based lacquer. All chairs and stools in the ECO series are EU Ecolabelled as a sign of environmental commitment.

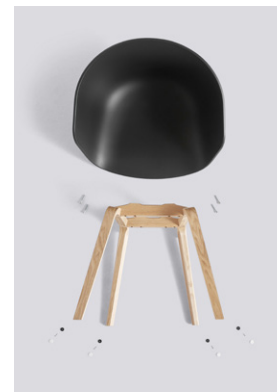

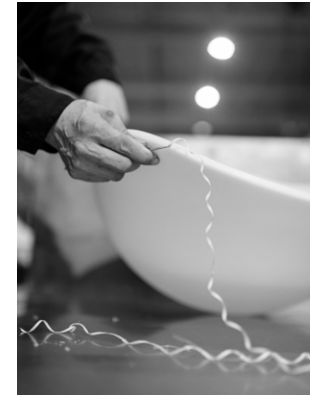

HEE WELLING

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA) and has been nominated as the Danish designer of the year in both 2013 and 2014. Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centred around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a great sense of proportion and quietly elegant looks. For HAY, Welling has designed the About A Collection and the Hee Chair, Lounge Chair and Bar Stool.

SUSTAINABLE HIGHLIGHTS

The About A Eco series has been certified with the EU Ecolabel, which signifies that 30% of the PP material used is recycled. It utilizes waste material from our own About A production lines, rather than disposing of the extra material, all while maintaining the aesthetic and expression of the About A collection. It also uses water-based lacquers for the frames, and FSC-certified wood. All AA Eco products can be disassembled and recycled.

DIMENSIONS

W51 x D50,5 x H78,5 cm
Seat height 46 cm, Seat depth 40 cm

MATERIALS

SHELL / Injection moulded solid coloured polypropylene shell without armrest
Made of recycled and virgin PP

BASE / 4-legged FSC solid wood base in oak
With standard gliders / felt gliders optional

TEST / EN 16139 L2 & ANSI BIFMA X5.1

CERTIFICATE / EU-Ecolabel & FSC

SHELL

ECO BLACK

BASE

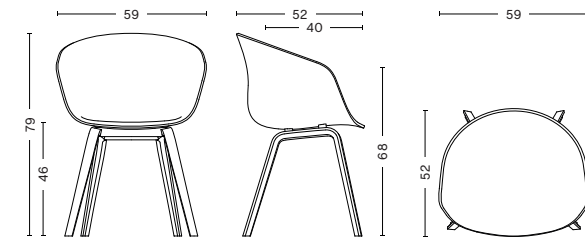

WATER-BASED
LACQUERED OAK
