Catalog for USM Modular Furniture Haller

FAQ

Colors

All items from the Parkhaus collection are available in 36 colors.

Wool Felt

Our wool felt is made of pure wool and is exclusively produced in Germany. It is felted, fulled, smoothed, and dyed in an elaborate process using water, soap, heat, and pressure. The result is a high-quality, natural product of consistent quality.

Care

Wool felt is made of pure wool, like a good sweater. The wool's natural oils make it largely water-repellent so that it is easy to clean with a moist sponge or towel. We also recommend dry cleaning.

Location

Our products are exclusively cut, sewn, packaged, stored, and shipped in Germany.
