

AAC 12 ECO

PRODUCT FACT SHEET

AAC 12 ECO

DESIGN BY HEE WELLING & HAY, 2020

With the objective of recreating HAY's iconic AAC chair to reduce the impact on the environment, the About A Chair AAC 12 Eco is made from 100% post-consumer recycled plastic. The eco-friendly chair features the same distinctively curved shell and symmetrical solid base as the rest of the series, offering an uncluttered silhouette with a shaped back for optimal comfort. The wooden frame with elegant, rounded legs conveys warmth and character, and ensures greater stability and a longer lifetime. The recycled shell is available in different colours and the base is available in solid FSC-certified wood. The chair is EU Ecolabelled as a sign of environmental commitment, along with the other models in the Eco series.

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities in the surface are a natural part of the material and may occur.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
