

# FLOW STOOL/FLOW POUF

Jean Marie Massaud

2014

Upon request outdoor versions with sled base in white or graphite grey.

A family of stools of great impact and comfort completing the Flow Collection. Designed for home, office and community areas, they're available with a wide range of bases and finishes.

## FLOW STOOL WITH A WHITE OR BLACK SHELL

The shell made from moulded polyurethane is in goffered matt white or black.

The polyurethane used, called TECH®, is a high-density structural material that provides great resistance to impact, scratches and aging.

## UPHOLSTERED FLOW POUF

Plywood frame covered with non-deformable polyurethane and polyester wadding.

The upholstery, covering around every part of the seat, is fully removable.

**For the choice of upholstery, please see the section "fabric collection" on the website.**

## Bases

The bases are supplied in the following options:

- VN 4-legged oak base, frame from transparent-lacquered natural oak solid wood with a natural, brown or bleached finish, with a lacquered aluminium coupling device in matt white or graphite. Brushed stainless steel footrest on all versions. 360° swivel. Seat heights available: 44, 65, 78cm, for Flow Pouf 48cm.
- Sled base in steel wire, painted matt white, matt graphite, or chrome-plated. The white sled base has white feet and the graphite grey and chromed sled base have black feet. Seat heights available: 44, 65 and 78cm.
- VN 4-legged steel base, in folded sheet metal, painted matt white or graphite,

with an aluminium coupling device in the same colour. 360° swivel. Seat height available: 44, 65 and 78cm.

- LEM 4-legged base, in double-layer tubular steel with connecting elements in steel wire in matt white or matt graphite. Aluminium coupling device in the same colour. 360° swivel. Seat height available: 44cm.
- 4-legged oak base, frame from transparent-lacquered natural oak solid wood with a natural, brown or bleached finish, with a lacquered aluminium coupling device in matt white or matt graphite. 360°. Seat height available: 48cm.

sled base,  
VN 4-legged base in steel  
4-legged LEM base

- Upholstered versions:

VN 4-legged oak base  
4-legged oak base.

## Optionals

Upholstered PAD made with polyurethane and polyester wadding, and with quilting that is thermally bonded to the fabric. This special manufacturing technique endows the texture patterns and the padding with a three-dimensional look, while ensuring quality and durability over time. Because of these special features, the upholstery covering cannot be removed.

## Outdoor use

Upon request outdoor versions with sled base in white or graphite grey are available. Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity).

Regular maintenance, for instance periodic cleaning with water, increases resistance to corrosion.

## FLAME RETARDANT PADDING

Norms 1IM, California TB 117-2013 and BS are available upon request with a surcharge as of +5%. Feasibility, costs and delivery times to be verified with our Sales Dept.

NB: the use of flame retardant polyurethanes and interliner can give a different result from the standard.
