Naoto Fukasawa

Con la seduta LAND, disegnata da Naoto Fukasawa, Plank amplia la collezione Outdoor. Un progetto caratterizzato da linee pure che cerca l'equilibrio relativo al rapporto tra forma e carattere, tra espressione e fluidità. LAND è una seduta lounge realizzata con tecnologia dello stampaggio del materiale plastico in rotazionale. Nasce con l'intento di un prodotto per l'esterno ma il suo design sobrio ed elegante lo rende adatto anche per l'interno.

Il sedile basso e leggermente inclinato invita ad una postura rilassata con gambe distese e schiena supportata, ma ricorda nello stesso momento la sensazione di essere seduti in una vettura sportiva. Ideale per lounges ed aree d'attesa all'interno ed esterno.

With its LAND chair, designed by Naoto Fukasawa, Plank has widened its Outdoor collection. A design distinctive for its pure lines, it seeks to balance the relation between form and character, expression and fluidity. LAND is a lounge chair made with rotational plastic mould technology. It was born to serve as an outdoor seat, but its sober and elegant design makes it suitable for indoor uses too.

The low, slightly inclined seat promotes a relaxed posture with outstretched legs and supported back. At the same time, it provides the feeling of sitting in a sports car. Ideal for indoor and outdoor applications, including lounges and waiting areas.
