

# LINEAR WOOD BENCH

THOMAS BENTZEN ON THE DESIGN “The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design.”
