

# SOFT EDGE

---

*By Iskos - Berlin*

**HAY**

Made possible by exploring innovative developments in moulded plywood techniques, Iskos-Berlin's Soft Edge chair blends strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. The ultra-thin, soft-formed back and seat are free of sharp edges, embracing the body and providing human-centric comfort for constant movement. Both steel and wooden frame versions possess light, stackable qualities, making them suitable for a wide range of public and private environments – from classrooms and cafés to the home.
