SLANT

DESIGN BY BRANCH

HAY

Inspired by the power of shapes and how they impact their surroundings, Japanese design team Branch's Slant Lamp features a bold graphic aesthetic that takes possession of the space it occupies. Comprising a simple, slanted cylindrical form with a weighted base to keep the angle perfectly balanced, all components are concealed within to retain the clean, elemental silhouette. Crafted in aluminium with a satin, wet spray finish to create a smooth finish, it utilises a standard retro fit bulb, hidden away behind the lamp's acrylic diffuser, which softly distributes the light. Available in several colour options, Slant's sculptural design and functional, directional light make it suitable for a variety of home and office settings.

TECHNICAL DATA

This product is fitted with an E27 bulb fitting. HAY recommends using this product with LED bulbs, max. 15W. HAY will not accept any responsibility for any accidents, injuries or damages that occur due to the use of incorrect bulbs.

ATTENTION

Ensure that the power supply to the circuit has clearly been turned OFF before installing the product. In some countries, electrical installation must be carried out by authorised electricians/contractors; please check with your local authority for guidance. The product must not be modified in any way. HAY accepts no responsibility for any products that have been modified or tampered with.

If the external flexible cable or cord of this luminaire is damaged, it should be exclusively replaced by a qualified electrician in order to avoid an electrical hazard. This lamp is designed for indoor use only.

The Slant table lamp is designed to be used with LED based light sources only. Halogen or incandescent light sources should never be used, as it may cause damage to the lamp.

CARE AND MAINTENANCE

The product can be cleaned with a soft damp cloth and mild detergent, or a dry microfibre cloth. Do not use alcohol or any other solvents to clean the product and avoid using abrasive or rough sponges. Ensure that the power supply has been turned OFF before cleaning the product.

- PARTS -

Shade

Diffuser

Base

Allen key

Screws x3

1.

Place the diffuser on the base and insert and fasten the supplied screws, as shown below. The base has a small ridge, with a corresponding groove on the diffuser, ensuring that the two parts are correctly assembled.

2.

Screw an E27 bulb into the bulb fitting.

It is advised that a dimmable LED bulb, no more than 15W is used in this lamp.

Please note that larger globe-style bulbs will not fit in the lamp.

3.

Place the shade on top of the diffuser, as shown below, aligning the small pin on the inside of the shade with the corresponding slot on the rim of the diffuser.

4.

Once the shade is in place, it can be secured to the base. Insert the supplied Allen key into the two holes in the bottom and tighten the two screws that secure the shade to the base. Take care not to overtighten the screws, as this may damage some of the internal components.

5.

For UK customers, insert the EU plug into the converter provided. Close the converter over the EU plug with the pins secured in the internal spring clip contacts. Screw the converter together to ensure the UK plug is secured.

6.

The lamp is now ready for use.
