

Cassina

111 WINK

Catalogue | Contemporanei

Year of production 1980

Armchair with adjustable positions. Steel frame, padding in CFCfree polyurethane foam and polyester wadding. Side knobs adjust the back, the headrest is divided in two parts, each with an independent reclining position. Fabric or leather upholstery. Optional special fabric overcovers are available on request. Floor support in black plastic material. By tilting the base forward the armchair becomes a chaise longue.

This versatile design works as both an armchair and a chaise longue in that it is part ergonomic car seat, with its adjustable handle at the side, and part Mickey Mouse fun-loving design. Wink can be moved into many positions, and is also available with a whole range of covers that can be changed: a seat to combat the visual boredom that comes with the passing of time.
